

900-HOUR MASSAGE PROGRAM

The 900-hour massage program is a more advanced learning experience than the minimum 500 hours required by Florida.

There are several advantages to our 900-hour program. Foremost is cost. Tuition is waived. Second, we offer advanced hands-on training in our 900-hour program. You learn hot stone, barefoot deep tissue, sports, and other massage styles. Third, you gain much more hands-on experience. Lastly, our 900-hour program is NCBTMB approved. Graduating from our 900-hour program will allow you to apply for their certification.

In this program students will perform a minimum of 300 massages in Alpha's public massage clinic. The massage clinic allows us to waive the normal \$9,000 tuition that would be charged for this program. Instead of students paying for their education Alpha's massage clients pay it for them. This benefits the students in two ways: cost and experience. You will not owe student loans when you graduate from Alpha. Your education will be paid for and your first professional massage client will be paying you and not your student loans. Second, your resume will be superb with at least 300 public massages under your belt when you graduate.

Costs:

- \$200.00 Enrollment fee
- \$99.00 Monthly supply reimbursement fee
(Monthly supply reimbursement fees are due only for the months you attend; as little as ten months with regular attendance. Approximately 10 months for full-time days, 12 months for full-time evenings, 15 months for part-time days, and 19 months for part-time evenings.)
- \$0.00 Tuition

There are additional book and supply fees as listed in our catalog. They are estimated at \$400.

Our massage programs have three additional costs associated with them that are paid outside the school. They are as follows:

- \$265.00 MBLEx Fee (paid to the state's exam contractor)
- \$155.00 State Licensing Application Fee
- \$90.00 Background Check and Fingerprinting

Please see our catalog for additional information.

350-HOUR ESTHETICS PROGRAM

The 350-hour esthetic program is a more advanced learning experience than the minimum 260 hours required by Florida.

Students will learn how to analyze skin types, determine what products to use, which services will best benefit a client, safety and sanitation, Florida laws, business, and how to succeed in the facial specialist field. They will receive training in facials, waxing, eyebrow and eyelash tinting, microdermabrasion, chemical peels, makeup application, basic eyelash extensions, and more.

In this program students will perform a wide variety of services throughout the 350 hours in Alpha's public esthetics skin care clinic.

Costs:

- \$200.00 Enrollment fee
- \$199.00 Monthly supply reimbursement fee
(Monthly supply reimbursement fees are due only for the months you attend. Approximately 3 months for full-time days with regular attendance.)
- \$3000.00 Tuition

There are additional book and supply fees as listed in our catalog. They are estimated at \$400.

The esthetic program has additional costs associated with it that are paid outside the school. They are as follows:

- \$75.00 State Facial Specialist Registration Fee
- \$20.00 HIV/AIDS Course approved by the Board of Cosmetology

Please see our catalog for additional information.

Alpha School of Massage

• Learn to Relax •

Our School

Alpha is the oldest massage school in the city of Jacksonville. Operating locally for 25 years, we are now bringing that experience into the world of beauty and skin care.

Full-time massage students can complete our 900-hour program in just 10 months with an investment of less than \$1500. Students learn Massage Theory, Anatomy and Physiology, Business, Ethics, and much more.

Full-time esthetic students can complete the program in approximately 3 months with an investment of less than \$4200. Students will learn facials, microdermabrasion, waxing, makeup application, and much more.

There is a significant emphasis on client practice giving our students an advantage in the market place.

How do we keep the student's cost so low?

Services

Alpha chooses to maintain a busy clinic that provides revenue allowing us to avoid charging our massage students tuition. We simply transfer the cost of operating our massage program from the student to the client. This has benefits beyond the savings. Our clinic allows our students to gain real-world experience making them valuable to our local employers. But don't take our word for it, call around and ask for recommendations from the employers themselves.

Want to learn more? Check our website for more information about our 900-Hour Massage Program or our 350-Hour Esthetics Skin Care Program.
