

Alpha School of Massage

Learn To Relax

Our promise to you...

Our programs are based on low monthly payments to fulfill our debt-free promise. We don't charge tuition for our 650-Hour Massage Program.

We charge a monthly supply reimbursement fee of \$149. This fee is due every month that you're attending our massage programs. When you withdraw or graduate our program further monthly fees cease. You will not pay supply reimbursement fees for months you do not attend.

Why don't we hold you to a contract?

We want to graduate only those students most passionate about massage or esthetics. We don't want you to feel stuck in our program if you find that you aren't as interested as you previously thought. That serves us both. By only graduating the most passionate students we ensure our local market is happy with our therapist. When the local market is happy with our therapist, they become our cheerleaders.

We want you as a cheerleader as well, but we believe that would be next to impossible if we forced hundreds of dollars in debt upon you for a program you didn't complete. Furthermore, we don't want you to complete a program just because you'll owe either way. That doesn't serve you, us, or our local market. We believe if you come to Alpha and give us and your chosen program a shot and don't like it, you'll still cheer us on because we didn't penalize you for trying it. We get to cheer you on by releasing you to pursue something you will love. We believe it is a win/win for everyone and it's our promise to you.
